

Welcome to the Independent School District 196 Eastview High School

Parent Portal

PHILOSOPHY:

The purpose of the Eastview Parent Portal is to enhance communication between teachers, parents and students. Parents as informed partners enhance learning through a more productive process of support and encouragement for students.

The portal provides parents convenient access to their student's grades, assignments, attendance, and discipline data.

TEACHER EXPECTATIONS:

- Teachers will continue to determine reasonable assessment timelines depending on the nature of the assessment.
- Teachers may record and date future assignments to assist students/parents in the time management process.
- Teachers have the ability to close the portal for a specific course during the assessment process or when the teacher deems appropriate.

PARENT EXPECTATIONS/UNDERSTANDING:

- Parents will adhere to the signed Parent Portal Acceptable Use Policy. The data displayed in the Parent Portal is for parent use / view. If it is determined that parents have provided inappropriate use of the portal to their student/s, the parent access to the portal may be denied.
- Parents should understand that timelines for specific assessment and student grade reporting will vary depending on the assignment or assessment.
- The data displayed is a status report that may not include all completed and graded assignments at the time of viewing. Grades are considered final approximately two weeks after the completion of the term, when they are posted to report cards and transcripts.
- If there is a parent concern regarding a grade, missed assignment, attendance, or discipline data displayed, parents will be expected to discuss the issue with the student prior to contacting the teacher or attendance/discipline office.
- Parents may ask questions regarding the Parent Portal or receive technical assistance through e-mail contact at Eastview@district196.org.
